STILL OWNER FINED \$500 AND SENTENCED TO JAIL

Steele, Mo., Sept. 25.—S. I. Woods who was arrested here several days ago for having a "moonshine" still in his possession, was given a preliminary trial today before Justice of the Peace Watkins and fined \$500 and given six months in jail.

Woods was in the act of moving the still from a field near town when the still, of about ninety-gallon capacity, was found in the car by Deputy Sheriff Wilson. J. W. Foster, who was with Woods at the time, and the owner of the car were released.

—Genuine oak lawn swings, well bolted and re-inforced; the kind that will stand hard use. We put them up for you. Lefler Hardware Co.

After the Gayety of-- What Then?

Are you run down and worn out with too much entertaining? Have you had too much on your shoulders—too much work to do? Are you worried and wan? Build yourself up. Get in shape. Don't regret the good times you had or the good times you helped to afford others, but help Nature to reassert herself by taking

Reall Beef, Iron and Wine the real scientific tonic for real people who do things and who want to live every day as it should be lived. The price of \$1 per bottle is all you pay.

Mexico Has Relief Plan for Benefit of Her Workers

Washington.—The Mexican congress is expected to pass shortly a measure introduced at the initiative of President Obregon, providing for old age pensions and accident and life insurance for the workers of Mexico.

The funds necessary to finance this project will come from a tax of 10 per cent of the amount of salaries and wages paid by employers. The impost is paid by the employer and does not come from the workers' income. It is declared to be one of the most revolutionary and far-reaching pieces of legislation ever fathered by the head of the government. Its passage is said to be assured.

During the administration of President Obregon a total of 2,215,390 acres of land have been allotted to applicants for purposes of cultivation. A total of 119,649 citizens have received these allotments, a little over 18 acres each.

The number of villages affected is 520. Every State in the Republic is represented. Much of the land has been paid for in cash, from eight to ten million pesos (half dollars) having been so expended.

SCORES ARE HURT IN RACE RIOTING

Bricks, Razors, Knives and Clubs Are Used.

New York, Sept. 27.—Bricks, razors, knives, clubs and fists were the weapons that sent six victims to hospitals and a score of others, less seriously injured, to physicians for treatment today as the result of a race riot between whites and blacks that grew out of the invasion by negroes of a neighborhood tenanted by white families. Police reserves quelled the battle.

Three of the six seriously injured are under arrest and under police guard in hospitals. They are white men, all charged with felonious assault. They are suffering from razor cuts, stab wounds and broken heads. A negro and two negroes also are in hospitals, but have not been arrested.

The battle occurred in West Forty-ninth street, on the upper West Side, where the police say trouble has been brewing for some months. Early today a party of white men is alleged to have invaded a hall where a celebration of negroes was in progress. They were ejected, badly beaten, the police say, and later they dragged two negroes and their male escorts from a taxicab and set on them. This is said to have precipitated a general battle, whites and blacks flocking to the melee from all directions. Razors, knives and clubs augmented fists, while adherents of both factions stood on nearby tenement roofs and hurled into the swirling mass bricks torn from chimneys. Riot calls brought several squadrons of police, who rushed the two factions into an enforced peace.

Extra police tonight are patrolling the neighborhood to prevent a resumption of hostilities.

That would have been "awful" had it happened "down south." But it didn't happen down that way. Down south they go after "the negro" when he commits upon some white female his worst crime. Up north they go after "the NEGROES," and the above dispatch tells for how insignificant the cause. Still the negroes think they belong to the Republican party and will vote no other ticket.

BOAT OWNER MADE \$3000 A MONTH DUE TO STRIKE

Poplar Bluff, Mo.—Robert Grah owned a ferry boat at Claryville. Business was dull and Grah was barely making ends meet. Then came the railroad shopmen's strike.

Grah has been taking an average of 80 automobiles and wagons across the stream a day during the summer, charging \$1.50 each. Other vehicles cross also, and occasionally men horseback or pedestrians. Each trip swells his pocketbook. He has been making an average of \$3000 a month this summer, he says. Net profits for June, July and August were \$9000.

WORST STATE ROAD WILL BE CONSTRUCTED FIRST

Engineer Piepmeier Also Urges People to Support Amendment Providing for Maintenance.

B. H. Piepmeier, chief engineer for the State highway commission, says that sections of road to be built under the State's extensive highway program will first be chosen for work which require heavy grading and large bridges.

"We are anxious to complete the worst portions of the highways first," he stated, "so that the traffic may get maximum service from the improvements, and the heavy fills may become thoroughly settled before the hard surfacing is applied."

"As the law stipulates that road work is to be carried on in all counties of the State simultaneously," Mr. Piepmeier added, "it will be but a short time until there will be a large mileage of improved roads in every county in the State."

The present road program has been delayed, Mr. Piepmeier declared by the railroad strike and the priority order on open top cars for coal shipments. However, he averred, there are now employed upon public highways more than 7,000 men. The State highway commission now has approximately 300 employees making surveys, preparing plans and supervising and directing work. Though the economical handling of the work has been rendered difficult by wide separation of the project, Mr. Piepmeier asserted that it had been accomplished so far at a cost of only five per cent of the work done.

All the work is done, he said, through division engineers, who have permanent headquarters in different parts of the State. The present plan is to expand each division office so that they can keep in close touch with the projects and thereby insure all work being carried out in full compliance with the plans and specifications.

"The commission," Mr. Piepmeier stated, "is making extensive plans to place under contracts a very large amount of construction work under the \$60,000,000 road program. The full amount of \$5,000,000 worth of road bonds which were sold Sept. 1 will be under contract before January 1. Additional bonds will probably be sold by the first of the year, so that we can have contracts let in all counties of the State before construction work opens up next year."

Mr. Piepmeier urges that all Missourians vote for Amendment No. 3 to the constitution Nov. 7. This would make available for the main-

tenance of 7600 miles of road designated by the legislature a portion of the money derived by the State from the sale of automobile licenses. It would, he said, relieve each county and district through which the roads pass, of considerable expense.
